It was said he will leave Salt Lake, either today said he will leave Salt Lake, either today instrument through which is wielded almost wholly the industrial energy of this generations of Americans—it is the best instrument vet discovered by which that or the first of next week, for an extended trip through the east to inspect auditori-

ums and formulate plans for the building to be erected here. A conference was held yesterday be A stock company is to be formed and the stock for the building floated among local capitalists.

According to the preliminary plans now being considered by Mr. Graham and his associates, the auditorium will seat 2,000 persons and the front of the building will "Mr. Roosevelt" contain on the first floor a piano store and a sheet music store. Above this will be located fifty studios for musicians, Every studio it is proposed to build has already been spoken for by local artists, according to statements made last night.

Negotiations are now under way for leasing the store rooms on the ground

floor. Business men throughout the city have greeted the new auditorium project enthusiastically and there is little doubt that it will receive the undivided support of the commercial interests of the town. Fisher Harris, secretary of the Commercial club, has been actively interested in securing pledges for the stock to be issued and just previous to his departure. sued and just previous to his departure for the east last week he secured several pledges for large blocks.

Paul Borth, the man shot, left the room fearing to get into a scrape of some sort, knowing that Smith was a bad man. Smith, it seems, left the room by a window and en route secured a single-barrel shotgun loaded with a No. 12 bore shell, containing fine bird shot. When he got out he saw someone, but not being able to distinguish his man in the dark, asked who it was. Borth replied, "It is I. Paul," and without further warning Smith emptied the contents of the shotgun into the man, the shot striking the victim in the left shoulder, thereto. McDonald was the aggressor, ribbed up the fight and if the officers had not appeared, from the way the athad not appeared, from the way the attacked man was working. McDonald would have been well thrashed. As it is, he was bound over in the sum of \$10 to appear tomorrow afternon at 4 o'clock. McMillan is out on the same bond, but there is no question but that he was fighting simply in self-defense, but he was giving a good account of himself when the officers stopped the fight.

On General Ground.

"Mr. Roosevelt thus far has dealt with the corporation problem as if the relation of the corporation to the people was almost wholly that of business rival to the individual man—as if the relation between the corporation and the individual mar was chiefly an arm's length relation. And I am one of those who believe that in taking this attitude he wisely chose the first step in any comprehensive program for corporation reform. Indeed, before the 'corporation' as the best instrument for wielding the people's energy, and working out the people's property instinct, could be brought distinctively into public thought, it was indispensable that exist-ing corporations should be taught that there is such a thing as a people's will expressed in law, and that there is such a thing as obedience by everybody to the

Park Ciy, June 14.—A shooting scrape took place last night about 9:20 o'clock in Empire canyon beyond the city limits, at what is called the Half-Way house, though the trouble occurred at what is know as the McKinsir house. Paul Borth was shot by Nicholas Smith, this last name taken in lieu of one of length and unpronounceable by said Smith. The men, according to the evidence now in hand, were engaged in playing a friendly game of cards with a few dollars on the side, and after a deal Smith reached over and took forcable possession of the money, though it is claimed that he had no right.

In that direction, is the duty of a continued watchfulness. But the next great distinctive step forward also waits for us—the work of turning this preparation into permanent deed—of putting into enduring form, not only ideally, but actually, in the corporation structure of the future, those practical principles of the square deal, that will transform the corporation into a permanently fit agency in which to embody, and through which to embody, and through which to work out, our triumphant industrial life. The people of America have shown that between the corporation, when it reaches its best estate, and the people, who are building up these industrial triumphs, though factorian control of the distinctive step forward also waits for us—the work of turning this preparation into permanent deed—of putting into enduring form, not only ideally, but actuality, in the corporation structure of the future, those practical principles of the square deal, that will transform the corporation into a permanently fit agency in which to embody, and through which to embody and through the second of the more provided watchfulness. True, carry that judgment into execution. True, in some of the states the work of reform has begin. But it would do little good to have reformed corporations in New York or Wisconsin, while the free and easy corporations of New Jersey remain. To be effectual, the reform must

be uniform throughout the nation and the "It is to the every-day business man, then, in touch with the business affairs of the country, that I bring this appeal. The corporation problem, in the very highest sense, is his problem; for just as it was the supposed business needs of the past that gave to the country its existing corporation policy, it ought to be the clear business foresight of today that will lead in giving to the country a corporation policy for the future, that me do not live by bread alone, will lift the American spirit of enterprise to new levels of individual opportunity.

MEETING WITH NEWHOUSE EVERY DAY PROPOSITION AGREEMENT IS ABROGATED

TORY OF THE ALTON.

New York, June 14 .- The agreement be-Rock Island company entered into in 1904 railroad has been abrogated by mutual consent, according to authoritative announcement made today. In future, it was stated, the Chicago & Alton stockholders will manage the property. Under the agreement which has just been abrogated the Rock Island company and the Harriman interests alternately controlled the Chicago & Alton, the Rock Island company being in control one year and the Harriman interests the next. I plan would have expired in 1914. I termination of this plan is said to without prejudice to either party?

No Change in Policy.

The Chicago & Alton officials explained that it was simply an instance of letting stockholders manage their own affairs. It was felt that this policy would best subserve the interests of the stockholders. There is to be no change, according to the Chicago & Alton officials, in the policy of the road, which has been managed by the Rock Island under joint control agreement since last September. ment since last September.

B. F. Yoakum of the Rock Island and

San Francisco roads is the present chair-man of the Chicago & Alton executive committee. At the present time the Rock Island has six representatives in the board of directors against five so-called Har-riman directors. The recent resignation of J. B. Forgan from the Chicago & Aloth board reduced the Harriman representation to four. It is understood that meeting of the stockholders will be held it elect a board of directors under the new plan, but no authoritative statement was made on that point.

In financial circles it is generally under-

stood that the Rock Island interests hold over 50 per cent of the Chicago & Alton stock and that E. H. Harriman and his friends hold 25 per cent.

Harriman's Testimony.

The financial management of the Chicago & Alton road by the Harriman interests as told by E. H. Harriman in his testimony before the interstate commercecommission some months ago aroused much adverse criticism and discussion as o whether or not action should be taken to restrain Mr. Harriman in the manage-ment and to protect the interests of the smeller stockholders. The interstate com-merce commission has as yet made no re-port on this matter, but a severe criti-cism of the Harriman management has been made by the commission's counsel and by Attorney General Stead of Illinois in a report to the governor of that state. In his report Mr. Stead said that the indebtedness of the Alton system has been increased to a total of \$80.646.218 since it came into Mr. Harriman's hands. Of this amount, only \$22,500,000, according to Mr. Harriman's continuous continuous according to Mr. to Mr. Harriman's own testimony, said the attorney general, was incurred for improvements, betterments or extensions

"Over \$57,000,000 of this indebtedness." over \$67,000,000 of this indebtedness," said the attorney general, "or more than 70 per cent of the entire indebtedness created by this syndicate upon the properties of these several companies, was not created in furtherance of any legitimate purpose for which a railroad company is or can be organized under the statutes of the state of Illinois."
